As per our previous phone conversations, the dynamite/mine opening hazard was eliminated and the reclamation work was completed at your expired Notice U-70057-Rainbow's End/Sunset site near White Rocks in the Bull Valley Mountains, Washington County, Utah. On November 15, 2007 the Washington County Bomb Squad counter-charged the old dynamite present within the adit. Reclamation work at the site, consisting of backfilling the adit, re-contouring the disturbed area, and seeding was subsequently completed by the Cedar City BLM Force account crew during the November 26-29, 2007 period. The total cost to complete the site reclamation and drag the old equipment down to Gunlock was \$3,650.00. Attached is a spread sheet showing a breakout of the charges for equipment and personnel. In addition, a few photographs of the completed reclamation are enclosed. Please contact the St. George Field Office to arrange for settlement of this bill within 30 days of receipt of this letter. If you have any questions, please call Russell Schreiner at (435) 688-3205.

Sincerely,

James D. Crisp
